

## DERMATOLOGY – QUESTIONS FOR ORAL EXAM

Urticaria  
Oedema angioneuroticum  
Contact dermatitis  
Atopic dermatitis  
Diagnosis of allergic dermatoses  
Acne vulgaris  
Rosacea  
Seborrheic dermatitis  
Sweat gland disorders  
Androgenetic alopecia  
Alopecia areata  
Nail disorders  
Disorders of skin pigmentation  
Gonorrhoea  
Non gonorrhoeic urethritis

- 1.Imperigo contagiosa
- 2.Staphylococcal scaled skin syndrome
- 3.Cellulitis
- 4.Erysipelas
- 5.Lupus vulgaris
- 6.Xeroderma
- 7.Ichthyosis vulgaris
- 8.X recessive ichthyosis
- 9.Collodion baby
- 10.Treatment of ichthyosis
- 11.Symptoms of venous leg ulcer
- 12.Treatment of venous leg ulcer
- 13.Thrombngitis obliterans
- 14.Raynaud's disease
- 15.Thrombophlebitis

Structure of the skin  
Functions of the skin  
Pathohistology changes of the skin  
Additional diagnostic procedures in dermatology  
Bacterial skin infections  
Viral skin infections  
Tinea group  
Pemphigus vulgaris  
Pemphigoid bullosus  
Dermatitis herpetiformis Duhring  
Diagnosis of syphilis  
Treatment of syphilis  
Acquired syphilis  
Congenital syphilis

Nevi  
Precancerous lesions  
Melanoma  
Basal cell carcinoma  
Squamous cell carcinoma  
Lichen planus

Pityriasis rosea  
Psoriasis vulgaris  
Erythema nodosum  
Erythema exudativum multiforme  
Pediculosis  
Scabies  
Tinea unguium  
Tinea superficialis capitis  
Tinea profunda capitis  
Pityriasis versicolor  
Dermatomyositis  
Morphea  
Lupus erythematosus
