

Unievrsity of Niš, Faculty of medicine		COMPETENCE OF PROFESSORS			
Personal data					
Name		Suzana Otašević			
Position		Full Professor			
Academic or scientific position, affiliation					
	Year	Affiliation	Scientific field		
Election to the current position	2012.	Faculty of Medicine, University of Niš	Microbiology and Immunology		
Doctor of Philosophy (PhD)	1998.	Faculty of Medicine, University of Niš	Medical mycology and immunology		
Specialist of Microbiology and Parasitology	1992.	Faculty of Medicine, University of Niš	Microbiology and Parasitology		
Subspecialist	2015.	Faculty of Medicine, University of Niš	Health promotion		
Master degreeMSc in field of Microbiology	1993.	Faculty of Medicine, University of Niš	Microbiology		
Doctor of Medicine (MD),	1986.	Faculty of Medicine, University of Niš			
An institution where the teacher works full-time					
Affiliation		Faculty of Medicine, University of Niš			
Date of the employment		01.02.1990.			
List of subjects on which the teacher is engaged					
	Name of the subject			Study program	
1.	Microbiology			Integrated academic studies	
2.	Clinical microbiology			Integrated academic studies

Membership in scientific and professional organizations and associations			
▪	2016-present	Vice-president of Serbian society of medical mycology	
▪	2011-present	Member of board of Serbian society of parasitology	
▪	1989-present	Section of Microbiologists of Serbia, Serbian Medical Society	
▪	2014-present	Member of medical chamber	

- 2016-2021 Member of ESCMID (European Society of Clinical Microbiology and Infectious Diseases)
- 2020-present Member of ISHAM (The International Society for Human & Animal Mycology)
- 2014- Present – Member of *European Dirofilaria Society*

Member of the committee for the evaluation and defense of the doctoral dissertation:

- Member of the committee for the evaluation and defense of the master's thesis: Examination of the prevalence of canine filariasis onin some areas of Vojvodina, candidate B.Sc. Vet. Aleksandar Tasić at the Faculty of Veterinary Medicine, Belgrade.
- Diagnostic and epidemiological aspects of the presence of Giardia lamblia in the digestive tract, candidate for M.Sc. Nataše Miladinović-Tasić Faculty of Medicine, Niš;
- Comparative analysis of different methods in diagnosis of dog infection with dirofilaria immitis, candidate of Aleksandar Tasić, MSc - 2009, Department of Veterinary Medicine, Faculty of Agriculture, University of Novi Sad;
- Evaluation of sinonasal induction methods secretions for the detection of fungi in the sinuses in physiological and pathological conditions in patients with chronic rhinosinusitis, PhD candidate Aleksandra Barać, 2015,
- Clinical significance of molecular diagnostics of toxoplasmosis in high-risk patients, candidate Dr. Tijana Steiner, 2016,
- Frequency and risk factors for infection T. gondii in the population of voluntary blood donors and pregnant women, candidate Milena Blagojević University of Belgrade, Medical faculty;
- Examining the effectiveness of acrylatesmodified with antifungal substances to prevent the colonization of prostheses by fungi of the genus Candida", candidate of Dr. Milica Išljamović at the Faculty of Medicine, University of Kragujevac, Serbia.
- Member of the committee for evaluation and defense of doctoral dissertation: "MOLECULAR-GENETIC CHARACTERISTICS OF DERMATOPHYTES OF THE GENUS TRICHOPHYTON-CAUSES OF ONYCHOMYCOSIS", candidate Ivan Mikhailovich Pchelin, at St. Petersburg State University in Russia.
